ABOUT

CSE student specializing in MERN stack development, learning data related skills. Skilled in building secure, scalable, component based full-stack applications with clean, responsive UI and REST APIs.

EXPERIENCE

Frontend Developer Intern

Shadow Fox 

 Feb 2025 – March 2025  Indore, India (Remote)

- Designed 5+ reusable components.
- Integrated Formik for dynamic form handling and validation, improving user input accuracy.

TECHNICAL SKILLS

- Programming Skills** :C, C++, Python, JavaScript, TypeScript
- Development Skills** : React.js, MUI, HTML5, CSS3, MUI, Node.js, Express.js
- Data Science and ML** : Excel, Numpy, Pandas, Sk-Learn, ML Algos, AI/ML Fundamentals
- Development Tools** : VSCode, Jupyter Notebook, Git, Google Colab, Cursor, WindSurf
- CS Fundamentals** : DBMS, OOPS, DSA, OS, Networking

HONORS AND AWARDS

- Participated in college hackathons, developing innovative projects and collaborating in teams.
- Solved 300+ Leetcode questions.
- Gained a Backend Development Certificate, with expertise in server-side programming, REST-API and client and server side integration.

PERSONAL SKILLS

- Increased productivity by 25-30% using AI tools (Cursor, Windsurf, GPTs).
- Committed to continuous learning and knowledge sharing.

EDUCATION

B.Tech CSE

Graphic Era Hill University

 July 2022 – July 2026

PROJECTS

Job Portal

- Working on a job portal using the MERN stack and TypeScript with role-based access control for recruiters and students.
- Improved user engagement by integrating interview question banks and career roadmaps
- Optimised API security using middlewares of user and recruiter.

Advanced UI Portfolio

- Developed a responsive portfolio web app using React.js and MUI with component-based architecture.
- Implemented form validation, submission by Formik ensuring optimized user experience on different devices.

Sales Analysis Excel Dashboard

- Build an interactive sales analysis dashboard in MS Excel involving data cleaning, preprocessing, and pivot table-based analysis.
- Performed T-test-based hypothesis testing and KPI analysis to derive actionable business insights.
- Analyzed dataset of 1000 rows

Expense Tracker

- Built a site with secure user authentication, CRUD functionality and toggle theme.
- Tracked income and expense transactions and improved user engagement.
