Education

Graphic Era Hill University

June 2026

Bachelor of Technology (GPA: 7.8 / 10)

Haldwani, Uttarakhand

- **Relevant Coursework:** Data Structures and Algorithms (C++), Prob & Stat in CS (Python), Intro to CS II (C++), Linear Algebra w/Computational Applications (Python)

Experience

Shadow Fox

Jan 2025 – March 2025

MERN Stack Developer Intern

Haldwani, Uttarakhand

- Developed and maintained responsive web applications using the MERN stack and REST Api ensuring seamless functionality across all devices.
- Collaborated with team members to debug, test, and optimize application performance, enhancing responsiveness and reducing page load times.

Projects

LuckyJob - Job Portal | MERN Stack, TypeScript | [Live Demo](#)

- Developed a full-stack job portal connecting students and recruiters, enabling candidates to browse listings, apply for jobs, and track application status through a streamlined recruitment workflow.
- Implemented recruiter-focused features for company profile management, job posting, and applicant review, allowing organizations to create company pages and manage hiring processes efficiently.
- Designed a scalable and well-structured application architecture inspired by leading platforms like Naukri.com, incorporating a dedicated blog section for career guidance, industry insights, and job-related content.

Expense Tracker | MERN Stack | [Live Demo](#)

- Developed a full-stack expense tracking application with secure user authentication, enabling users to manage personal financial data safely and efficiently.
- Implemented comprehensive CRUD functionality for income and expense transactions, allowing users to monitor spending patterns and maintain accurate financial records.
- Designed an intuitive and responsive user interface with light/dark theme support, interactive dashboards, and transaction analytics to enhance user experience and engagement.

Advance UI Portfolio | React.js, Material UI, Formik | [Live Demo](#)

- Developed a modern and fully responsive portfolio website using React.js and Material UI, delivering a seamless user experience across desktop, tablet, and mobile devices.
- Built reusable and modular UI components following a component-based architecture, improving code maintainability, scalability, and development efficiency.
- Implemented contact forms with Formik-based validation and submission workflows, ensuring accurate user input handling and a smooth communication experience.

Technical Skills

Languages: C, C++

Technologies: React.js, Express.js, Python, Node.js, Mongodb, Prompt Engineering, Numpy, Pandas, Sklearn, Matplotlib

Concepts: Operating System, Machine Learning, API, DBMS **DevelopmentTools:** VSCode, Jupyter Notebook, Version Control, Google Colab, Cursor, WindSurf
